There's a Cleopatrae craze now.

Mr. James Lambert, of New Brunswick, Illinois, says: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day and would insist on every one, who is afflicted with that terrible disease, to use Chamberlain's Pain Balm and get well at once." For sale by T. G. Julian. 30-41

Easter bonnets are blooming.

Pronounced Hopeless.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally settled in consumption. Four doctors gave me up saying, I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at W. S. Lloyd's drug store, regular size, 50 cents and Accordian-plaited night-gown.

Here it is, and it fills the bill much better than anything we could say: "It gives me the greatest pleasure to write you in regard to Chamberlain's Cough Remedy. During the past winter I have sold more of it than any other kind, and have yet to find any one, but what was benefited by taking it. I have never had such universal satisfaction." J. M. RONEY, Druggist, Genda Springs, Kansas. 50 cent bottles for sale by T. G. Julian. 30-41

Spring jam and mint sauce caper lightly to the font.

The following item has been going the rounds of the press, and as our druggist, T. G. Julian, handles the goods, it may interest our readers:

Having had occasion to use Chamberlain's Cough Remedy, it gives me pleasure to state that I found it to be the best medicine for a cough I ever used; in fact it cured me of a cough that had killed several other cough medicines. N. R. BURNETT, Atalissa, Iowa. 30-41

Bernie's latest freak is to adopt a five-fold New York girl.

a New Discovery.

Says a Boston dentist: "Out of sheer curiosity I dropped in last Saturday night to an auction sale of unclaimed express packages. Buyers can only guess what they are bidding on, for packages are not broken, so the whole thing is a regular lottery. Each buyer generally opens up his package as soon as he gets it. The man next me opened a bundle he had paid fifty cents for. It was full of loose false teeth. He was disgusted and I bought the lot for \$1. Within forty-eight hours I had sold the lot, and got just \$80 for them."

Sir Edward Arnold, while living in Japan, not only smoked frequently himself, but even trained his children, including a little girl, to do so. Cigarettes seem to be very popular in that country.

Joe Jefferson has no patience with the system of acting classes to theatrical performances, and when he wants his particular friends to come as "complimentaries" he buys a bunch of tickets and hands them around. He doesn't want to rob the box office in entertaining his guests.

Mrs. Harriet Brown recovered a verdict for \$600 damages in the Boston County (Tenn.) Circuit Court from John Bostick. Last August, while at home on a visit to her husband, Bostick forcibly kissed her three times. The kisses were costly, each being worth \$200 in the opinion of the Court.

Here are some good things to eat for good health and good looks: Soft boiled eggs, hominy, California figs, fresh asparagus, lettuce, toast, brown bread, bread and milk, lamb, fish and apples, chocolate, cocoa, fresh milk, hot lemonade and bouillon drank by the quart will do wonders for the woman who has been filling herself with tea, coffee, punch and wine all season.

Jerry Simpson says: "The Farmers' Alliance members are simple, honest folks, and their representatives in congress, I can assure you, are not going to put on any fine feathers and ape the manners of the rich. We shall return, as far as possible, to the primitive order of things. We expect to live comfortably, but unostentatiously, and will not allow any frivolous society claims to interfere with our duty to the country and our constituents."

"I do not think Mr. Blaine is giving any thought to the Presidency," said said Senator Eugene Hale, of Maine, to New York reporter, the other day. "Mr. Blaine is devoting all of his time and energy to the State Department. He is making a magnificent record there, and one that will live in history. I think he will be content with that. I know that he is not a candidate for President. His ambition is centered in the Department of State."

Some Curious Facts About Birds and Wasps.

If you will be interested, children, in reading about some of the curious and wonderful ways of birds and insects, I should like to tell you of some I have just been reading about. I must confess to the keenest interest in everything pertaining to natural history, and I never fail to read any article I may see telling about it. A sportsman tells of some "live balls," he calls them, that he saw during a tramp through the woods of Van Diemen's Land: He observed what he thought to be immense hornets' nests hanging to the limbs of high trees. He spoke of them the next day to his host and the farmer going with him to the woods said, "watch that nest while I fire at it." As the report of the gun burst upon the air, the hornets' nest, as the sportsman thought, fell apart as if by magic, while a loud chirping came from each fragment, that, instead of dropping to the ground rose high above the trees and flew away. The round gray ball was a cluster of wood swallows. These are the only birds known to have this remarkable habit. At certain times in the day they will begin to congregate about a tree, and suddenly several of them will alight on a dead limb and cling to its under side. Others will join them hanging with their heads down until a ball is formed that grows rapidly, the new ones alighting and clinging with their claws to each other until the entire flock is suspended in a great ball. How so few birds can sustain the weight of so many seems miraculous. Sometimes they seem to be asleep and the ball drops as if the birds near the limb lost their hold. They just fall apart and fly away just as they did when shot at.

The sportsman did not know or did not say why they did in this way, but something must be accomplished by it for the animal creation act by instinct and their instinct never leads them to act foolishly and without reason.

Dr. J.
